

Position - Project Research Officer

Appointing Organisation

Tata Translational Cancer Research Centre
Tata Medical Center, Kolkata

Last date of Application : 12th April 2022

The Tata Medical Center and the Tata Translational Cancer Research Centre

The Tata Medical Center (TMC) is a multispecialty institution for tertiary cancer care based in New Town, Kolkata. At TMC, clinical and research activities are integrated to provide state-of-the-art care for patients with cancer. This integration is enabled by the Tata Translational Cancer Research Centre (TTCRC), the research arm of TMC. TTCRC is within a dedicated academic space and spread over 3 floors. At TTCRC, a multidisciplinary team of clinicians, scientists, academics and industry professionals collaborate to develop a systems medicine approach in cancer research. This approach is focussed on developing innovative, indigenous, cost-effective and equitable strategies to improve cancer diagnosis; develop treatments that match disease characteristics and are adapted to treatment response; and, identify prognostic and predictive disease biomarkers. These strategies are multi-dimensional and involve an iterative pathway that include clinical studies, high-throughput laboratory investigations, computational strategies to integrate, analyse and model data, hypothesis-based pre-clinical studies and evidence-based translation of findings to clinical practice. For additional information on work at TTCRC, visit <https://tinyurl.com/TTCRC-systems-medicine> and <https://tinyurl.com/TTCRC-childhood-ALL>.

The Position

In this position, you will work as part of the cancer cell biology group at TTCRC. The group uses high-throughput discovery screens coupled with systematic hypothesis-driven studies to investigate potential leads from clinical observations and proteogenomic studies. Integral to this approach is the development of suitable pre-clinical tumour models that closely recapitulate disease and that are robust and reproducible. The group's work is focussed currently on two cancers, acute lymphoblastic leukaemia and gallbladder cancer. The group is supported by a dedicated tissue biorepository, a clinical research unit, genomics and informatic analyses. Access to resources include confocal microscopy, flow cytometry, dedicated tissue culture facility, virus transduction facility and mass spectroscopy. Your primary responsibility will be to continue, optimise and extend ongoing work on developing, establishing and maintaining suitable primary cultures from tissue samples. This will involve working closely with the hospital's multidisciplinary clinical service, the tissue biorepository unit and colleagues in the cancer cell biology group. You will also participate in downstream functional studies that will use these model cell systems to investigate disease biology and identify therapeutic opportunities. The post holder will have a designated desk and computer.

Minimum required qualifications/experience

- (a) MSc in Biological Sciences, including Life Sciences, Biotechnology, Cell & Molecular Biology, Microbiology and Pharmacology
- (b) Familiarity with mammalian cell culture
- (c) Familiarity with basic research laboratory protocols, procedures and techniques

Necessary qualities

- (a) Integrity, motivation, enthusiasm
- (b) Focus and commitment in carrying out tasks and duties
- (c) Critical analytical and problem-solving skills, capable of independent work
- (d) Ability to work effectively as part of a multidisciplinary team
- (e) Clarity in career and professional development goals

Appointment and reporting

Appointment to the position will initially be for 1 (one) year. The consolidated monthly salary is INR 25,000. The position is funded by a centre grant from the Tata Consultancy Services. The successful applicant will be managed by the Lead Scientist in Cell Biology and will report to the Director.

Enquiries

- (a) For further details on TMC and TTCRC, visit www.tmckolkata.com
- (b) Submission of applications by post or by e-mail to:
Mr Suvasish Mukherjee; Head, Human Resources; Tata Medical Center; 14 Major Arterial Road (East-West); Newtown, Rajarhat; Kolkata 700 160
e-mail: suvashish.mukherjee@tmckolkata.com
- (c) For informal enquiries,
Ms Sukanya Guha (sukanya.guha@tmckolkata.com)

Knowledge/ Aptitude/Skills,	Requirements	Essential / desirable	Information from
1. Disposition / Attitude	a. Integrity b. Flexibility c. Motivated d. Committed e. Willing to learn new skills f. Works as part of a team g. Receptive to new ideas h. Capable of independent work & to an agreed plan i. Good time management j. Organized, able to prioritize responsibilities k. Works to high technical and quality standards	a. Essential b. Essential c. Essential d. Essential e. Essential f. Essential g. Essential h. Essential i. Essential	Application form CV Profile Interview References
2. Education / Qualifications	MSc in Biological Sciences, (Life Sciences, Biotechnology,	Essential	Interview Application form

	Cell & Molecular Biology, Microbiology& Pharmacology)		CV
3. Experience	a. Good laboratory practice b. Cell & molecular biology techniques, protocols	a. Essential b. Essential	Application form CV Interview & References
4. Skills and ability	a. Critical thinking b. Problem solving skills c. Readiness to evaluate, develop and test new approaches and strategies	a. Essential b. Essential c. Essential	Application form CV Interview References
